ABOUT US

Established in 1996,WANROOE now is the leading manufacturer of anti–bedsore mattresses (anti–decubitus) , nebulizer and pressure therapy devices in China.

We specialize in:

- Medical air mattress with pump
- Pressure therapy machines
- Nebulizers
- Self–inflating cushions and pillows
- Medical water beds

Our Factory: We have 4 production lines with 200 employees and factory size over 10,000 square meters.

Our Capacity: Over 2000pcs air mattresses per day. 20 containers per month.

Our Market: USA, Europe, Russia, Asia, Australia, Middle East...etc.

Our Qualification: ISO13485, FDA, CE, FSC, TUV EN60601–1

Welcome to contact and visit us!

Air Pressure Therapy System

It is a pneumatic pressure treatment system that repeats expansion and shrinkage with sequential pneumatic pressure to vitalize the circulation of blood and lymph in arms and legs. It enhances the pressure of muscular tissues to remove swelling or pain on arms and legs and restore patients' physical functions from disabilities or agedness.

Pneumatic Compression treatment has alternative exercise effects for patients of obstacle of body movement like paraplegic patients, malformation of limb by accidents, etc. As intermittent air compression stimulates the troubled limb and promotes the circulation of blood and lymph of whole body of the patients, it gives similar effects as exercise.

PT1003

Features:

- Portable with handle, easy to carry
- Touch screen operation panel, state-of-art design
- Two modes for both massage and therapy
- Individual part compression available
- Extremely low noise, silent running
- Warranty 2 years
- FDA 510K approved and TUV CE certified

Specifications:

- Pressure Range:20-250mmHg
- Timer:10.20.30 mins
- Power Consumption: 30W
- Voltage: AC 110V/60Hz or AC 220V/50Hz
- Machine Size:28X17.5X13CM
- Machine Weight:2.5KGS

Applications:

In medical field:

- DVT prevention
- Lymphatic drainage
- Wound recovery
- Edema relief

In beauty field:

- Leg slimming
- Weight loss
- Body shaping
- Anti cellulite

In sports field:

- Sports relaxation and recovery
- Sports injury healing

In massage field:

- New air leg/arm massager

PT1002

Specification:

- A,B mode available
- Model No:PT1002
- Pressure Range:20-250mmHg
- Timer:10.20.30 mins
- Power Consumption: 30W
- Voltage: AC 110V/60Hz or AC 220V/50Hz
- Machine Size:26X17X13CM
- Machine Weight:2.5KG

PT1001

Specification:

- One mode available
- Model No:PT1001
- Pressure Range:20-250mmHg
- Time Range:1-30 mins
- Power Consumption: 30W
- Voltage: AC 110V/60Hz or AC 220V/50Hz
- Machine Size:26X17X13CM
- Machine Weight:2.5KG

APP-B01 /B02 Bubble Air Mattress

Features:

- For both hospital and home care use.
- A-B lines alternating air bubbles give super bedsore treatment.
- Medical grade PVC material from Taiwan Nanya company, durable and high quality.
- 12 months warranty.
- One time welded by 200KW power high frequency machine.
- Daily output 5000pcs bubble mattresses.

Specifications:

- Size: B01: 200cm(L) X 90cm(W) X 7.0cm(H) after inflated.
  B02: 182cm(L) X 76cm(W) X 7.0cm(H) after inflated.
- No. of bubbles: B01 130 air bubbles
  B02 96 air bubbles
- End flaps: 40cm
- PVC thickness: 0.3mm or 0.4mm optional
- Color: Classic beige or blue optional
- Repair kit and hose included
- Net weight: 1.95kgs
- Weight capacity: 135kgs

APP-P05 Air Pump

Features:

- Durable ABS pump case.
- Aluminum motor cover, good heat dissipation, anti-vibration.
- Extremely low noise, silent during working.
- Knob control panel, easy to operate.
- Pressure adjustable.
- Warranty:2 years

Specifications:

- Power: 110V/60Hz; 220V/50Hz.
- Air output: 7-8 liter/ min.
- Pressure range: 20mmHg-140mmHg.
- Cycle time: 12 mins.
- Power consumption: 7W
- Fuse: 1A
- Size:29cm(L) X 10.5cm(W) X 9.5cm(H)
- Net Weight: 1.1kgs.

Durable Piston Compressor Nebulizer

SY-N8001

SY-N8002

A highly efficient ,stable ,easily maintained compressor nebulizer with extended life hours to deliver smaller particles of respiratory medicine. Can be used for home, hospital,clinical,nursing centre and etc.

Specifications:

- Power Supply: AC220V/50Hz
- Power Consumption:50W
- Nebulizer Rate: 0.18 LPM
- Max Compression Pressure: 29 psi
- Max Compressor Flow: 10 LPM
- Particle size:0.5-10um
- Sound level:≤60dB Pressure range:(48-52psi) 330-350kpa
- Weight: 2KGS.
- Warranty: 2 Years

Waterbed can expedite blood circulating to effectively prevent bedsore for the patients who are bed-ridden,especially very helpful for the patients who have been burned. Waterbed fully support patients according to their body shape. No matter how the posture change, it can fully support body for pressure relief.
